Subject: House Bill 7540 - Rank Choice Voting in Rhode Island

As a resident of Rhode Island, House Bill 7540 bill, should not move forward. We have one vote only. Again our present system is simple and straightforward. Less chance of fraud. I do not want my vote to be reallocated to a candidate, I do not support.. This change would take away my one vote per person and replace it with some algorithm that is not easy to understand by most voters.
