House Bill Number H-7968
Date: 4/7/2024

To the committee,

I support House Bill Number H-7968 and I hope you will too. Detaining immigrants who are in the midst of navigating their immigration cases and journeys is inhumane. This legislation would put a stop to the many documented horrors caused by the Wyatt Detention Center and keep future prisons/detention centers from opening here. People have died from neglect and abuse in Rhode Island detention centers. This should never happen again. Help make it so.
