Bill No. 5273

Standing on Bill: in support of Bill No.5273

When I was a Lifeguard Captain at Lincoln Woods state park in the summer of 2023, I recall an incident where a young man was having lots of trouble standing up and exiting the water. My coworkers and I didn't know what was wrong with the man until an environmental police officer informed us that the man was on drugs. I believe that if my coworkers and I received prior training on Narcan and overdoses that we could've determined the man's condition as soon as we saw him.
