To: House State Government and Elections Committee
Subject: Yes on same day voter registration

I am a Rhode Island resident, who lives in South Kingstown. I support H-5515 and urge the House State Government and Elections Committee to eliminate the 30-day voter registration deadline and pass the resolution.

Same day voter registration provides an accessible and efficient registration system and contributes to a smoother and more inclusive electoral process. As Americans, we should be working to strengthen the democratic principle of one person, one vote.

Thank you,
Amy Dunkle
