Subject: H5515

Dear Members of the State Government & Elections Committee,

I am an 81 y/o life long resident of the State of RI who has voted in nearly every election from the time I became eligible to vote.

Voting is the bedrock of any democracy which is why I believe everything possible should be done to facilitate the voting process for our citizens.

Please support H5515, 'Let RI Vote for Same Day Resolution.'

Thank you for your consideration.
