to the honorable Evan P. Shanley,

I write this as a citizen of the state of RI and on behalf of voting rights and voting access. We are supposed to be a constitutional democracy and under this administration, we are not. Making voting more difficult is absurd. Arbitrary deadlines are not fair. The 30 day deadline must be removed. I understand that same day registration works. Why doesn't RI have it for more than presidential elections?

Please pass H-5515 (2025).

Warmly and in wellness,
