Subject: PASS House Bill 5706 OR Restructure CRMC

Dear Honorable Representative,

I am a retired medical laboratory scientist and now am enjoying my lifelong dream of contributing to betterment of our oceans and currently working as a volunteer at Mystic Aquarium as an education interpreter. I also have long followed the litany of issues with CRMC's pathetic performance and am extremely disappointed why "the Ocean State" cannot have a non-political appointed body of knowledgeable experts to evaluate and make informed decisions about our coastline.

The current CRMC is scandal ridden even up to a previous RI State Supreme Court justice in cahoots with a marina operator. This state's citizens are being played big time and it's time to stop, period! It is indefensible not to make wholesale changes now.
