Dear members of the State Government and Elections Committee:

My Name is Angelina Stabile. I am a proud member of the National Federation of the blind of Rhode Island and the legislative director of this great organization. I am writing you about House Bill 7007. This bill would continue the allowance of voters with disabilities to use the electronic mail ballot portal that was used last year. It is vital that this bill is voted as before. Voting is paramount to the rights of all. We are living in very turbulent times. As a disabled community, our voting rights and how we cast our votes are under attack by the Trump administration. We must not allow this to happen. I implore all members of this committee to protect our right to cast our votes. Thank You for your time.
