Steve Sepe / clerk.

I just wanted to voice my opinion against the House Bill 7382/Helmet bill.
My peers, fellow riders, whether we wear a helmet or not, are against the bill!
I would guess that most of the legislators there do not ride. (Although, they might want to try, it does help relieve stress.) I don't understand how people who have No experience in something think that their opinion actually matters to those, RI citizens, that do have experience, as in Riding, in this case.
Have a great day, and we appreciate the bill being ignored, removed, and never being brought up again.
If somehow it does go up for a vote, We ask that you don't even put it up for a vote, and if it is, that it be voted Down!!

Thank you for your attention to this matter,
