Subject: SUPPORT H7494 & H7669

Dear House state government & Elections Committee, I am writing to voice my SUPPORT for:
H7494 - which would require the Board of Elections to provide a secure location for public observation of mail ballot processing. It would also mandate signature verification using the state's central voter registration records and require voters requesting a mail or emergency mail ballot to provide a Rhode Island driver's license number, state ID number, or the last four digits of their Social Security number. I'm not sure why there even has to be a bill for this perfectly common sense action of signature verification, but let me go on record as supporting this. Nice to see some bipartisanship happening in the RI state legislature!

H7669 - limits early voting to 8 days before an election. Very much in favor of this, and again, nice to see bipartisan support for this bill.
