To Whom it may Concern;

H7303 appears to be another desperate Democrat act to assist cheating on elections.

Eliminating the 30 day window denys the investigating body the chance to determine the actual eligibility of the applicant. Additionally, by allowing "same day" registration and voting, "Voter Tourism" is encouraged, allowing "voters" to register and vote at multiple locations. It smacks of the potential for Democrat corruption.

As you may have sumised, I strongly oppose this bill.
