Subject: Oppose H7232

My name is Sara Vieira and I am from Coventry.
I oppose H7232 which introduces Fusion Voting.

Fusion voting is stated to do the following:

1. •

Voter confusion and ballot complexity

- **2. Erosion of election integrity through added administrative burden**
- 3. Does not fully solve vote-splitting and can distort outcomes**

In RI, when voter confidence is at all time low, the RI State Legislature needs to boost confidence in our elections by providing transparent elections. Fusion Voting does the opposite of this. It is not about election integrity. Changing the way we vote does nothing to "improve" voting.

Sincerely,
Mrs. Sara Vieira
