Subject: Support of 4 Election Bills for 03-26-26

I strongly support all of the following bills;

H7380 which will prohibit ranked choice voting in all of Rhode Island elections, It should be banned alongside 13 other states who have permanently banned it so far. Here is are two simplified examples of why RCV is a partisan push.

H7783 should be supported to be repealed from taking part in the interstate compact to get rid of the electoral college.

H7788 should be supported so that those utilizing early voting ballots can do so with confidence that their ballot is being protected and verified.

H7979 will enable less mishandling and a better chain of custody.
