Subject: election bills

You don't often get email from stacey4ri@gmail.com. [Learn why this is important](#)
hello committee,

I'm writing as a concerned constituent of H5 in PVD regarding our elections.

I'm writing in support of 7787 which upholds making sure that the voter is actually the voter. I am also in support of 7979 regarding the use of mail ballots.

And there are some bills being heard that I am in opposition to....

I'm writing in opposition to 7782, which just increases confusion & mistrust regarding our election outcomes. It looks suspicious. Counting should be no more than a day or 2.

7232 greatly increases confusion regarding our elections, which is no good for any voter.

7788 also deals with RCV, and adds a great deal of confusion, many of people's votes historically get thrown away. Which is not OK. Votes = our voices. They are not trash & deserve to be heard.

7981 adds another layer of RCV. I would like our elections to be much simpler than this would be, to increase confidence & security in our elections, where the voters feel like they can trust the outcome.

thanks, Stacey Capizzano in House 5 PVD, 02908. I vote & want it to count.
