Subject: Support for Bills H7380 and H7451, Opposition to H8334

You don't often get email from kmoniz81@gmail.com. [Learn why this is important](#)

Dear Representatives,

I am writing to express my support for both H7380 and H7451. These proposals address issues that many residents have raised concerns about, and I appreciate the attention being given to them.

Regarding H7380, I understand that this bill would prohibit the use of Ranked Choice Voting in local, state, and federal elections. Supporters of this bill have argued that maintaining a traditional voting structure helps ensure clarity for voters and preserves a system that people are already familiar with. I believe it is important for lawmakers to consider these perspectives as they evaluate the bill.

As for H7451, this bill would require mail ballot applications to include a Rhode Island driver's license or state ID number, or the last four digits of a Social Security number. Many people who support this measure view it as a way to strengthen verification procedures and promote confidence in the mail ballot process.

I would also like to express my extreme opposition to H8334. Individuals who oppose this bill have raised concerns about its potential impact on existing election procedures and how it may affect voter access or administrative processes. I believe it is important for legislators to carefully consider these concerns as they review the proposal.

Additionally, I want to make clear that I do not support any legislation that would allow individuals who are not legally eligible to vote, including those without lawful immigration status, to participate in elections. Many residents have voiced concerns that such measures could affect confidence in the electoral process, and I believe it is important for lawmakers to take these perspectives into account.

Thank you for your time and consideration of these matters, and for your continued service to our community.

Sincerely,

Kristen L. Moniz
