Testimony in OPPOSITION to H-7380: Prohibits the use of ranked choice voting in all local, state and federal public office elections.

Why I OPPOSE this bill:

Ranked choice voting has been proven in many states to be a method which refocuses elections on policy and listening to the voice of the people rather than distractions of partisanship and special interests. It is simple and easy to understand and deploy. Instead of banning it, we should be adopting it while heatedly. We need to change our voting system from once that introduces a false dichotomy to one that starts a conversation and builds coalitions to solve the problems we face in our communities and help to advance our economy and society. I oppose banning the use of this most needed voting option.
