Dear Elected Officials,

More than ever, it is imperative that the Constitutional rights of all US citizens be protected. Our nation was founded 250 years ago to free us from the tyranny of a monarchy. I have proudly voted in every election since I was first eligible in 1972, and am strongly concerned that my great-nieces and great-nephews will not be able to exercise the same right I have enjoyed as an American citizen.

Democracy is under attack in our country right now. Please ensure that every Rhode Island voter is guaranteed our right to vote by passing the Rhode Island Voting Rights Act.

Respectfully,
Cynthia A Martin
