**Subject:** Support for H7029 – Foot Nurse Bill

You don't often get email from [baucoin@stelizabethcommunity.org](mailto:baucoin@stelizabethcommunity.org). [Learn why this is important](#)

Dear Representative Boylan,

On behalf of Saint Elizabeth Community, I am writing to express our strong support for House Bill H7029, which would allow foot nurses to provide routine foot care in the home.

As an eldercare provider in Rhode Island, we deliver home care services to seniors across the state. Allowing trained foot nurses to provide routine foot care in the home setting would greatly benefit our clients by improving comfort, preventing complications, and supporting overall health and independence. It would also provide important support to our dedicated home care staff.

We appreciate your leadership on this important issue and strongly encourage the committee to advance this bill. Thank you for your continued commitment to Rhode Island's seniors.

Sincerely,  
Briana Aucoin
