Subject: Written Testimony in Support of H7537 Requiring Insurance Coverage for Scalp Cooling Treatments

You don't often get email from nmm24@cox.net. [Learn why this is important](#)

Dear House Health and Human Services Committee Members,

I am writing in support of this very important bill that will require insurance companies to cover scalp cooling treatments. A diagnosis of cancer is devastating and the side effects of chemotherapy, which often includes hair loss, are very trying emotionally and physically to patients. The scalp cooling treatments are a way to reduce the side effect of hair loss and should be available to patients without being a financial hardship for them. Please support this bill.

Thank you,

Nicole Kettelle
