I am writing to urge you to vote in support of House Bills 7943 and 7945.

Both of these bills are proposed to make health care for people struggling with substance use and mental health issues easier to access and more comprehensive.

I can tell you that navigating the system is difficult and exhausting. Life for people struggling and their loved ones is already exhausting. Waiting for preauth can be a deal breaker for so many who need help and don't have the coping skills to with for authorization.

Please consider what you would want for someone you love. Please vote to support those whose lives are already so difficult and help make healthcare as accessible and caring as it can possibly be.

Thank you.
