Dear Health and Human Services Committee members, I am writing to request your support for the listed house bills being heard by your committee today.

I worked in several RI assisted living and nursing home facilities early in my career as a Speech-Language Pathologist. Now that my 90 year old mother is in assisted living, I am even more aware of the need for the protections these bills address.

I urge you to support all four house bills to help protect our ever growing aging population in RI.

Thank you for your attention and concern.
