You don't often get email from deniselriel@yahoo.com. [Learn why this is important](#)

- Dear Health and Human Services Committee members,

I am writing to request your support for the listed house bills being heard by your committee today.

I worked in several RI assisted living and nursing home facilities as a Social Worker.

Now that my parents are in a nursing home, I am even more aware of the need for the protections these bills address.

I urge you to support all four house bills to help protect our ever growing aging population in RI.

Thank you for your attention and concern.
