Dear HHS committee members,

I am writing to express my support for House Bill H7941.

As a healthcare provider, I see firsthand the challenges caused by delayed insurance reimbursements and administrative barriers to timely payment. This bill represents a meaningful step toward improving efficiency, accountability, and fairness in the healthcare system by ensuring that claims are processed in a timely manner and that providers have a clear pathway to dispute denials.

Timely reimbursement is essential not only for maintaining the financial stability of healthcare practices, but also for ensuring continued access to care for patients. Delays and inconsistencies in payment can disrupt operations, limit resources, and ultimately impact patient outcomes.

H7941 promotes a more transparent and reliable system that benefits both providers and the patients we serve. I strongly encourage you to support its passage.

Thank you for your time and your commitment to improving healthcare in Rhode Island.

Sincerely,

Ashley Wright
