Dear Chairwoman Donovan,

I am a physician assistant working for Oceanside Primary Care in Warwick. I have 18 years experience working in local emergency rooms and on critical care neurology floors.

This bill has nothing to do with patient safety and everything to do with money and control of a vital procedure. Please ask anyone who works in the emergency room how much more misery this will add to their shifts due to the wait time created.

Midlevel providers have been providing sedation for decades without incident and this will likely drive more talented people away from our already heavily strained emergency departments.

Please vote against this bad idea.

Jason Xynellis 133 Friendly Rd East Greenwich, RI 02818
