Subject: House Bill 7740

You don't often get email from k.fava@icloud.com. [Learn why this is important](#)

Dear HHS Committee,

Please oppose House Bill 7740. Passing this bill will impact patients access to care in an already stressed healthcare environment. Nurse Practitioners have the education, training credentialing and practice authority to provide conscious sedation and should not be restricted from doing so.

I hope you will thoughtfully consider the implications of passing this bill.

Regards,
Kathleen Fava MS, APRN, ACNP
