**Subject:** Please oppose House Bill 7740

You don't often get email from nharritos@yahoo.com. [Learn why this is important](#)

Good morning members of HHS Committee,

I am a nurse practitioner with over 35 years of experience, writing to you with my sincere and urgent recommendation. Please oppose House Bill 7740 that is being heard on April 14th. This Bill threatens to restrict Nurse Practitioners from providing moderate (conscious) sedation—despite our training, credentialing, and full practice authority. This would have a significant impact on the health care of our community, because it would greatly lessen the number of providers available to provide this service during common procedures.

Sincerely,  
Nancy Harritos, DNP, APRN-BC, FNP
