Madam Chair and Committee Members,

I am writing to support Bill 7740. I am a Nurse Anesthetist with decades of administering anesthetic in all settings. I have been in the "room" when sudden life altering situations have occurred. Luckily the outcomes were all good. We need well educated anesthesia administrators who will rapidly identify and expertly respond to any situation. In my professional opinion that anesthesia caregiver should only be a CRNA.

I strongly object to Anesthesia Assistants (AA) and or Physician Assistants (PA) administering Anesthesia for MAC cases. This group of providers do not have the educational level nor the experience to give YOU anesthesia even in the most simple procedure.

My Best,

Roxana Sasse, DNP (Doctor of Nursing Practice title earned after 40 decades as a CRNA) Sent from my iPhone
