Good morning,

My name is Vincent Alexandre and I am a Physician Assistant practicing in the state of Rhode Island. I am writing to voice my opposition to HB7740. I directly over see moderate conscious sedation in an effort to maintain maximum patient comfort while carrying out invasive procedures. Although, the specific anesthetic agents listed in the act are not agents I typically utilize I believe choice of agents should be made at the patient, practice, and hospital/facility level not enshrined into law. Legislation of this type only works to limit patient access to care which is already a significant issue in the state of Rhode Island.

Thank you for your time,
Vincent Alexandre, PA-C
