Hi,

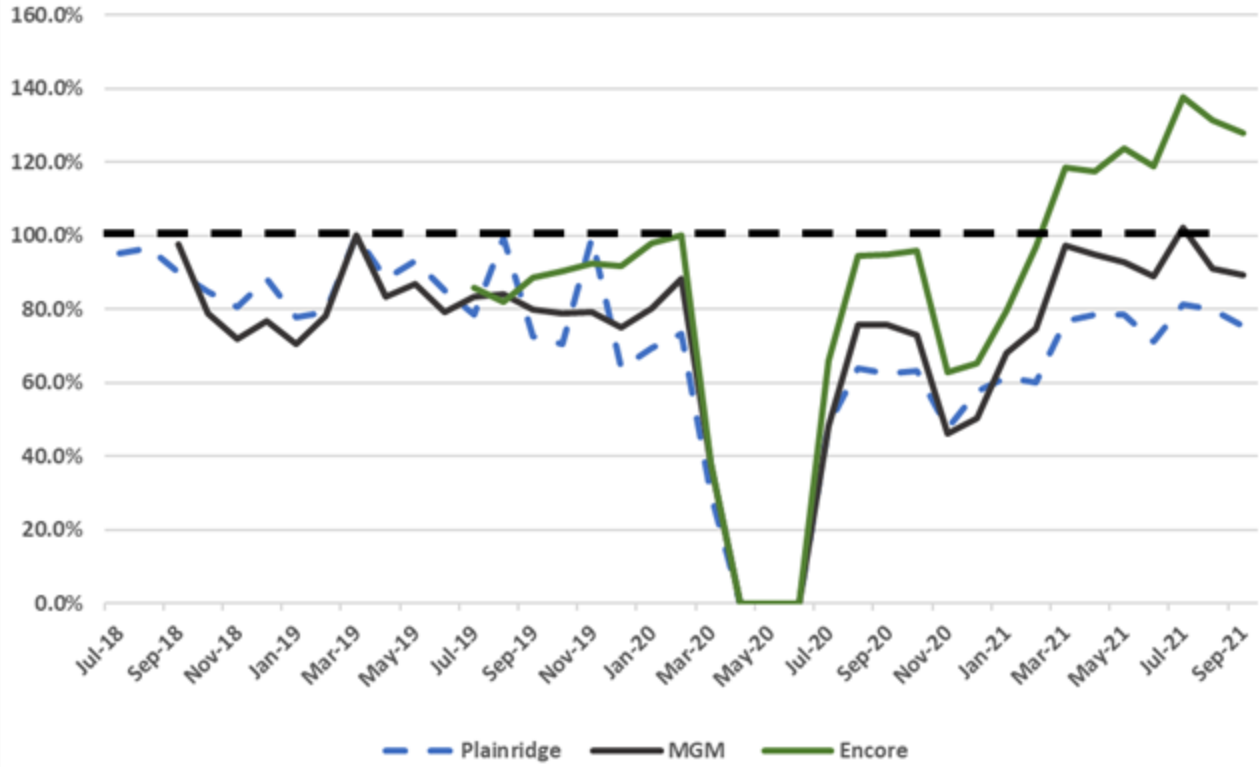

As a follow-up to your question at the REC as to whether there are dates specified in the Marc Crisafulli Economic Development Act, for the implementation of systems, payments, etc. that we may not be able to achieve if the contract amendments with Bally's and IGT are not completed until the end of the year – the answer is no there are not.

I also included some graphs which show VLT activity levels pre and post the pandemic. Paul Dion put these together for us.

Best,  
Mark
