**To:** Joseph Codega, Jr., State Budget Officer  
Sharon Reynolds Ferland, House Fiscal Advisor  
Stephen Whitney, Senate Fiscal Advisor

**From:** Jeffrey D. Emidy, Executive Director

**Date:** 27 October 2023

**Re:** November 2023 Revenue & Caseload Estimating Conferences  
Historic Preservation Investment Tax Credit Program reporting

---

The Rhode Island Historical Preservation and Heritage Commission has one program upon which the Revenue and Caseload Estimating Conference requests information semiannually – the Historic Preservation Investment Tax Credit Program.

The program is administered jointly by the Commission and the Division of Taxation. Attached to this testimony are two reports regarding that program, each in pdf and Microsoft Excel formats. Each report is current as of 24 October 2023 and is formatted in a manner that is consistent with past submissions provided by the Commission.

The first of these reports, the **Active Projects Report**, lists two types of projects:

- Projects (and phases of projects) that have not been completed but for which a Part 1 Application was filed before January 1, 2008, and for which the proponent(s) entered into a contract with the Division of Taxation in July 2008 for Historic Preservation Investment Tax Credits. The Commission has updated some of the information in our database based on information provided by developers about changes to their projects.
- Projects for which 2013 applications have been filed with the Commission. Only 2013 projects for which an application has been filed with the Commission are included in this category; projects for which an application may have been filed with the Division of Taxation but for which an application has not been filed with the Commission are not included.

The Active Projects Report lists projects as either “In Progress” or “Pending.” Projects are listed as “In Progress” based on Commission staff reports of project activity. Projects for which no recent project activity has been reported are listed as “Pending.”

The **Completed Projects Report** lists projects (and phases of projects) for which historic rehabilitation construction intended to qualify for Historic Preservation Investment Tax Credits have been completed, and the Commission has certified that the work complies with the program regulations. The values used in the Completed Projects Reports come from the Commission's files and information supplied by developers.

## **Some Program Highlights:**

### Completed Projects

The 320 projects and phases of projects completed to date represent:

- Total Investment of almost \$2.18 billion since 2001, and a
- Total of \$442.8 million of state historic tax credits over that period.

### Active projects

- Active Projects represent an estimated investment of \$433.06 million.
- The number of Active Projects has increased from 25 to 27 since April 2023.
- The amount of outstanding tax credits has increased from \$64.6 million to \$78 million since April 2023.

Finally, the historic preservation community in Rhode Island is thankful to the State Legislature for its addition to the fund for State Investment Tax Credit projects during the 2021 and 2022 sessions and for the annual extension of the sunset provision for the program. These actions are a welcome sign of support to the preservation community and the construction industries and acknowledgement that historic preservation is valued by the citizens of Rhode Island.

# Active State ITC Projects – Estimated Tax Credit, Cost, and Unit Totals
