# Challenges

## CRITICAL SERVICES AT RISK

---

- Record demand for homeless services
- Inadequate supply of affordable housing; more shelter beds needed as a short-term solution
- Federal funding cuts: it's not a question of if, but when...
- Increased reliance on state & local funding sources
- May need to scale back service delivery and possibly eliminate programs

***Crossroads has been serving Rhode Islanders in need for 130+ years.  
We're not stopping now.***
