Sustainability Stations

CLYNK 's Next Generation Container Collection Point

- Our Sustainability Stations are made of recycled plastic and are modularly constructed
- Easily transported to location
- Delivery and set-up is under 2-Hours
- We are completely off-grid and cellularly-enabled
- Designed with an active power management system
- Solar and wind turbine produce ~8 watts per hour
- The stations are 8 feet wide, by 8 feet high and range in length from 20 to 32 feet; 20-foot configuration has 3 drop doors and any length beyond 20 feet is a 4-drop door configuration
