

Representative Read (Earl),

The Commission to study Pawtuxet River flooding issues is off to a great start. I am confident that with all of us working together under your leadership we will be able to find solutions for this long standing problem.

As discussed, I would like to formally recommend that the following individuals (from West Warwick) be added as members of the Commission:

- Jeffrey Varone, Chief WWFD/EMA Director
- Randy Bottella, Owner Reliable Collision

I believe both individuals will bring a wealth of knowledge, personal insight/understanding and experience to the group.

Please let me know if you have any questions.

Maribeth Q. Williamson
WW Town Council VP
