

Mr Pilkington

I would like to humbly request my comment regarding redistricting be added to the record

I am a resident of the Riverside section of East Providence. My districts are Sen 32 and Rep 66. These two districts are primarily in Barrington with a small cutout in EP. This configuration basically denies a resident of EP representation from a fellow EP resident. I would like to request that this cutout be assessed and if the census number allows this part of EP be moved to Sen 18 and Rep 66. It has been my experience from talking to neighbors that not having a Townie represent us causes some voter apathy. Thank you for taking on this extremely important task and thank you for allowing the public to be a part of the process.
