Dear Scott Keeley

Datum
Berlin, den 22.02.2019

I am writing to you regarding the RI Shoreline Access legislation proposal. I had grown up in Germany and went as a teenager to North Niles Highschool in Chicago, which had a deep positive influence on my architectural career and my relationship to the US,

As a world citizen I am concerned regarding upcoming legislation that would simply allow "passage" along the RI shoreline but limit the constitutional rights of the American people to "privileges of the shore."

As RI becomes more inhabited by wealthy property owners along the shore, there is a tendency by their manners that less beach will be available for public enjoyment. I wish for any citizen of this world to know the same enjoyment of RI beaches that I grew up loving about the US.

I know the commission is set to meet again in early March and plead with you to advocate for our constitutional shoreline privileges including setting up chairs, coming and going from the shore to swim, fishing, clamming, and enjoying our shoreline recreationally rather than simply being able to use it as a sidewalk. Please do not pass legislation that further limits these constitutional rights.

With kind regards

Sebastian Wagner
