**Subject:** Fw: Senate committee amendment 3224

Subject: Request for Approval of Senate Committee Amendment 3224 Dear Senators, I am writing to urge you to approve the amended legislation S3224 without an expiration date. As a resident of North Kingstown, I am deeply concerned about the lack of transparency and consideration shown by the Quonset Development Committee regarding the QSS Biosolids project. The proposed pyrolysis plant, which is set to process dry sewage, is located in close proximity to residential areas, including less than a mile from the Hunt River Aquifer, our primary source of drinking water. Additionally, there are nearby daycare centers, schools, and a significant elderly population within a one-mile radius. I feel let down by the QDC's hasty approval process for this facility, as it directly impacts our community's well-being, property values, infrastructure, and public health. It is crucial that any project affecting our environment undergoes thorough discussion with residents, rather than being decided behind closed doors. I believe it is time to reassess the QDC's bylaws, especially considering that North Kingstown residents have minimal representation on the board, limiting our ability to have a voice in matters that directly affect our neighborhood. Transparency and community engagement are essential for building trust and ensuring the best outcomes for all stakeholders. Thank you for your attention to this matter. Sincerely, Glenna Stolzberg E. Knollwood Cir. North Kingstown, RI 02852
