School libraries and the freedom of information are essential to democracy, and I urge you to pass the School Librarians Act (S20780). At Burrillville Middle School, the library is a hub of activity where students learn how evaluate information, select books for pleasure, and work in a flexible environment, among other things. For many of my students, this library is the only access they have to books. The students of Rhode Island deserve a well-stocked school library. Please pass S20780.

Sincerely,

Kara Campbell
Library Media Specialist
Burrillville Middle School
