Dear Senate Education Committee,

My name is Lubicristin Lora, and I am writing to respectfully express my opposition to SB2787 and any proposed moratorium on charter public schools in Rhode Island.

As an educator, advocate, and member of the Rhode Island community, I strongly believe that families should have access to educational options that best meet the unique needs of their children. Every student learns differently, and many families rely on charter public schools because they provide opportunities, support systems, and learning environments that may not always be available in traditional settings.

I work closely with students and families from diverse backgrounds, including multilingual learners and students receiving special education services. Through my experience, I have seen how important it is for parents to have the ability to choose the educational setting where their child can feel supported, safe, and successful. Limiting those opportunities through a moratorium could negatively impact many families who depend on having access to different educational pathways.

Rather than restricting educational choices, I believe Rhode Island should focus on improving educational quality, increasing resources, and ensuring that all schools are held accountable for student success. Families deserve the right to make informed decisions about what works best for their children's academic, emotional, and social growth.

I respectfully urge the Senate Education Committee to oppose SB2787 and continue supporting educational opportunities and school choice for Rhode Island families.

Thank you for your time, consideration, and commitment to the students and families of our state.

Sincerely,  
Lubicristin Lora, M.Ed.
