I write this to express my support for the moratorium on charter schools. I know the funding formula is seriously flawed and that charter schools receive money based on the average cost of a district to educate a student. Unfortunately charter schools do not even come close to public schools in serving ECS students and other students that receive other services. These students greatly push up the average cost to educate a student. Because of this charter schools essentially get overpaid per student and systematically rob the public schools of money they rightfully need and deserve. Thank you, Richard Nawrocki
