You don't often get email from nicinic@psdri.net. [Learn why this is important](#)

The expansion of charter schools in RI has created a funnel through which public school students are PACKED into overcrowded classrooms, where it is IMPOSSIBLE for their educational and social-emotional needs to be met, where we (teachers and students) cower under the pressure of RICAS because we are just trying to maintain crowd control and survive each day. The children pay the price, year after year.

Give public schools the support we need!!

Speaking from experience, as the exhausted, demoralized teacher of 28 emotionally and academically needy 4th graders,

Tina Nicini

4th Grade MLL

Elizabeth Baldwin Elementary School
