Hello:

My name is Brenda Breault. I have served the Providence community as an educator for over 25 years.

Throughout my time in public education, I have consistently supported teacher rights, collective bargaining, and professional autonomy so educators can best serve the diverse needs of our students and communities.

I am writing to strongly oppose Bill #2934, as I believe it would significantly weaken teacher voice and self-advocacy during contract negotiations, while also reducing important protections against unfair hiring, firing, and administrative retaliation practices.

At a time when public education already faces ongoing budget cuts, severe teacher shortages, and increasing challenges within the profession, this legislation would place an additional burden on educators and further destabilize an already strained system.

I urge you to do everything possible to prevent Bill #2934 from passing and to support policies that strengthen, protect, and invest in public education and the educators who serve the future of our communities every day.

Thank you for your time and consideration.

Sincerely,

Brenda Breault,
Teacher
