I am writing to urge you to reject bill S 2934. As a Providence teacher, and Providence homeowner and resident, the passage of this bill would be detrimental to our teachers and students. This bill TARGETS only Providence teachers and looks to remove our rights to collective bargaining and alters our pay schedules. At a time when teacher shortages exist, especially in hard to fill positions in Special Education, Multilingual Learner classrooms, and STEM classes, the legislature needs to support bills that help retain teacher rights in order to attract new teachers in these areas. As a parent of children in the Providence Public Schools, I am asking you to please do what is best for ALL our students and oppose Bill S 2934.

Thank you,
Denise Backman
