Dear Rhode Island legislature

I'm writing to express my opposition against the aforementioned legislation that is up for vote in the house sponsored by Sen. Samuel D. Zurier.

I am a proud Providence school teacher and have been for over three decades. I have served the families and students of Olneyville with pride. This Bill with disrespect not only myself, but all educators, current, past and future. I feel that time should be spent on the House floor to better our education system with providing equity to all rather than stripping the rights of the teachers who work the hardest in the state. Again, I oppose this legislation and ask that you do the same.

Sincerely,
Voting citizen
Grace Payan
