Dear Senator,

I am writing to strongly oppose S 2934. This bill unfairly targets Providence public school teachers by allowing different minimum salary schedules and creating separate dismissal and demotion processes. Providence teachers deserve the same rights, protections, and professional respect as every other teacher in Rhode Island.

This legislation sends the message that PTU members are somehow less deserving than other educators, and I do not support that. Please vote against S 2934.

Sincerely,
Heather Simons
