Dear Senator,

I'm writing today to express my concerns about the bill sponsored by Sen. Samuel Zurier. I'm a proud Providence school teacher, and this bill impacts my district differently than all the other districts in the state. For example, they want a minimum salary schedule and a different process for dismissal/demotion of teachers. It is not fair to target one district with these items, while the other districts are free from it. This undermines my job security, it will increase the teacher shortage we already struggle with, and it will make our district less appealing to qualified teachers.

Thank you for your time.
