You don't often get email from lauraalmagno@gmail.com. [Learn why this is important](#)

This email serves to express my opposition to Senate Bill 2934.

Public education improvements are welcome and good teachers want improvement. This bill is NOT the solution. This bill targets a dedicated teacher group, PTU 958, and seek to diminish collective bargaining and protections in an historically dysfunctional school district, leaving the abuses of subjectivity, retaliation, and nepotism wide open.

Why seek to destabilize a workforce that already functions within an unstable environment?
Is the purpose to further squash teacher morale?

Please oppose S2934 and focus on authentic collaboration among educators, students, families, and administration.

My number is below; I am a willing participant for planning real solutions.

Thank you,

Laura Almagno
