Hello,

I am writing to express my opposition to S2934.

Providence teachers are NO different than any other teachers in the State of RI except in the fact that they may require extra certifications for their ESL population. By targeting them in this Bill you are establishing a precedent that will in turn impact ALL teachers in the state. Providence teachers may be the first ones targeted by this bill, but they certainly will not be the last.

Do not pass S2934.

Thank you.
Mary Ellen Raposa
