To Whom It May Concern,

I am writing to express my opposition to S2934.

Providence teachers should be held to the same standard and treated the same as other teachers in the state of Rhode Island. Providence requires their teachers to pursue further degrees to meet the needs of their student population. If you target Providence teachers, it will affect all teachers in the state of Rhode Island and future teachers who want to apply and work with our incredible students. One group of teachers should not be targeted. Please, I urge you not to pass S2934. Thank you for your time and consideration in this matter.

Sincerely,
Natalie R. Stone
