You don't often get email from thedeligirl@aol.com. [Learn why this is important](#)

Dear State Legislators,

Please understand S 2934 will only hurt an already crippled ship .

In the past 7 years we have lost good teachers durring the state take over in a system that has already about done away with seniority thanks to Steve Smith . We have had teacher assistants covering classes for years now due to the lack of new teachers wanting to teach in our system . Why bother coming to Providence when other towns are offering a whole lot more of everything including job security and a whole lot less BS.

In a district where there are more people keeping it together close to retirement I worry for our kids . Once we go ,there will be few to none to take up the helm while the rats try their best gnaw at rigging so they can keep trying to steal the cheese .

Please vote no on S 2934 .

Steve Smith and Sam Zurier have done enough damage.

Sincerely ,
A Providence Teacher.
