Regarding the above subject, I could not disagree more. Providence teachers should not be singled out from the rest of the State. Food alone must be provided to each student, and literally tossed in the trash. Busing, how much and why. The list goes on to far to mention. This bill would only serve to reduce the pool of teaching candidates further. Then you can pay big businesses that don't care about students as the City flips to 100% charter schools.
